Dear Mr. Hruskoci ,

I do personally apologize to you as in my submittal last April 12, 1999, it was flawed in " my unfamiliar with patent prosecuting procedure." I do appreciate your patience in this very important matter , and thank you very much for the materials you mailed which were very helpful. I have revised my U.S. Patent to comply with provisions of U.S. Patent Laws , 35 U.S.C.112 in " written description of invention , and in manner and process of making and using it , in such full , clear , concise , and exact terms as to any person skilled in the art to which it pertains " as you suggested . I have also tried to comply and feel I have complied in these revised submissions to 37 CFR 1.71. (a)- ( c ) , 35 U. S. C.103 (a)in my revised submissions. I have not added any new items from my April 12, 1999, original submittal . I have attempted in good faith to provide your requests , and feel I have used the materials you sent me to comply to all provisions as stated above.

I do thank you for sending me the additional materials and letter in pointing out where my submittal was deficient . Again , I do appreciate your assistance in the primary examining phase of my said U.S. Patent Application # 09/289,723. I am very anxious to proceed in overall goal of the eventual acceptance , issuance and publishing of my U.S. Patent.

Thank you again for your assistance , and please feel free to contact me by phone , email , or U.S. Mail immediately. In the file U.S. PTO has my first name mis-spelled in LAUNELL , should be Launeil . Until our next visit , I remain

Re: Submittal of Revised Materials on my U. S. Patent Application # 09/289,723

1724, to U. S. Patent and Trademark Office,  
Washington, D. C. 20231.

Dear Honorable Senators and Congressmen,

Attached is my letter in re-submittal of revised materials requested by Mr. Hruskoci in his  
April 21, 2000, letter received by me in U.S. Mail on April 29, 2000. I did extend my apology to

Mr. Hruskoci , as my original submittal in April 12, 1999 , did need some revisions because of my " unfamiliar with patent prosecuting procedure" . In this re-submittal , I have become very familiar with patent prosecuting procedure , and I believe I have complied with all provisions of these patent prosecuting procedures .

Furthermore , I am positive that my invention is patentable , and in these revised submittal my invention , I Believe , should be able to obtain " Patent Pending Designation" and shortly be issued and published . I sincerely ask and seek your help in expediting my patent application in order that my U.S. Patent might be published in an expeditious manner. In memorandum and support as I have previously supplied to you and in supporting materials from South Carolina Department of Health and Environmental Control emissions, NPDES discharge data , which as pursuant to Clean Water Act passed by Congress , all data concerning discharge and emissions are Public Information . As I have conveyed to you there is a very , serious, emergency situation here in South Carolina in that citizens , children are getting sick and dying. Citizens' wells are being contaminated and entire families are being polluted. As this is the case of Gephardt family in Anderson County and others whose wells have been contaminated and all their family members have become deathly sick from contamination of their drinking water well by raw sewage discharges of Anderson Sewage Treatment Plants. And as you see the contamination of Lake Greenwood and Reedy River in the discharge of raw untreated wastes fully demonstrates the complete failure of biological treatment . Additionally , the severity of extreme pollution in citizens ' wells , the complete mass /destruction and abolition of Lake Greenwood and other navigable waters of this state of South Carolina and the Catawba River where Bowater discharges and Lake Wateree may have had irreparable damages from these high raw discharges or damages which may take over 20 years to repair.

Someone has to stand in the gap , and I pray and plead and ask your assistance in helping me obtain my U.S. Patent. Any assistance you may provide in getting my patent accepted and published would be appreciated . Additionally , as I do believe that my ten claims have been revised to comply with " patent prosecuting procedure". And as I understand the U.S. Patent Law passed by Congress , that the primary patent examiner shall be allowed to write one claim for Patentee / Petitioner in order for additional guidance. I do believe these claims do comply with additional materials Mr. Hruskoci supplied to me in his letter on April 21 , 2000.

Furthermore , a very close associate and friend , Mr. Robert Williams , President of Interactive Data Works said he would gladly provide more help and would travel to Washington , D. C. , with me to meet with Mr. Hruskoci to expedite my U.S. Patent issuance , if this were to be required..

Thank You for your assistance and God Bless.

Sincerely Yours,

Launeil Sanders
